

PanTerra Networks Receives 2014 Unified Communications Product of the Year Award

SmartBox File Sync and Share Service Honored for Exceptional Innovation

Santa Clara, Calif. – June 16, 2014 – [PanTerra Networks](#), the leading provider of unified cloud services for mid-market enterprises, announced today that [TMC](#), a global, integrated media company, has named the company's SmartBox file sync and share service as a 2014 Unified Communications Product of the Year Award winner. The award honors the best, most innovative unified communications products and solutions released in the last twelve months as judged by the editors of TMC's INTERNET TELEPHONY magazine.

SmartBox significantly improves upon cloud store, sync and share services that have been available as separate offerings for several years by building-in unified communications features such as audio/video calling and conferencing, secure IM/presence and full web meeting collaboration, and by providing consistent ultra-high service attributes. By deploying full end-to-end management of its cloud services, last-mile bandwidth and associated networking equipment, PanTerra Networks delivers superior service attributes far exceeding industry averages in availability, reliability, security, scalability, QoS, Service Level Agreement (SLA) and support. These attributes ensure optimal performance while guaranteeing complete IT peace of mind.

"Companies are increasingly seeing value in a unified cloud platform for their enterprise that includes secure file sharing and unified communications," said Arthur Chang, CEO of PanTerra Networks. "PanTerra Networks' SmartBox file sync and share integrated with the company's CloudUC unified communications service is the ideal solution for mid-market enterprises. We're honored to receive this award from TMC; this validation recognizes the need for comprehensive enterprise solutions."

"I am excited to proclaim PanTerra Networks as a 2014 recipient of TMC's Unified Communications Product of the Year Award for their innovative product, SmartBox," said [Rich Tehrani](#), CEO, TMC. "Our judges were very impressed with the ingenuity and excellence displayed by PanTerra in their groundbreaking work on SmartBox."

Winners of the 2014 Unified Communications Product of the Year Awards are featured on [TMCnet.com](#).

About PanTerra Networks

PanTerra Networks is a unified cloud service provider, delivering WorldSmart, its family of secure, ultra-reliable, future-proof unified cloud services. WorldSmart includes SmartBox, the world's first file sharing service that communicates. It also includes CloudUC, a complete unified communications service that can upgrade and replace an enterprise's existing communications infrastructure with a next-generation cloud-based communications service. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available while significantly lowering their total cost of operations and IT

administration complexities. PanTerra Networks solutions are available through a global network of channel partners. For more information, call us at 1.800.805.0558 or visit www.panterranetworks.com.
